Do you have EPIRB No / Yes Reg No. GPS Yes / No Liferaft on board Yes / No

Member Information

- A Radio Operators Licence is required for MF / HF and VHF Marine Transceivers, except 27Mhz that does not require an operator's licence.
- MR Central Coast offers Radio Operators Courses leading to a Marine Radio Operator's Licence or a VHF licence. MR Central Coast has a 'hands-on' 27Mhz Radio Course, using closed circuit training radio equipment to help a boat owner become familiar with the practical use of marine radios.
- MRSS members receive a 10% discount for most MR Central Coast Marine Education Courses.
- For your safety, your marine radio transceiver should be on whenever you are on board your vessel, and a listening watch maintained at all times on the appropriate calling channel eg Channel 88 for 27MHz or Channel 16 for VHF. Radios on listening watch use a minimum of battery power.

I wish to become a member of the MARINE RESCUE NSW Central Coast Marine Radio Safety Service.

My payment of \$35.00 is enclosed (Joining fee \$5.00, Annual Membership \$30 – price includes GST)
Membership period is a calendar year, a Pro Rata membership fee of \$20 applies when joining from July.
Membership renewal notices are issued each December for following year.

Payment may be made by Credit Card (Visa or Mastercard only)
